LV Suitability 2012.pdf

Hi Rachelle,

After some initial confusion, I realized that USACE sent the (attached) Levin Terminal Dredge Operations Plan NOT for ocean disposal concurrence, but for Superfund concurrence (about appropriate silt curtain and dredge equipment/operations issues). I have not looked at this yet but I will today. See what you think too, and we can compare notes as soon as you're ready.

Thanks!

Hi Brian,

Attached is the latest suitability letter for Levin. Unless I am misreading this they are taking all the material to berth b for drying and then elsewhere. So I don't think we need an ocean concurrence.

-Debra

Hi Debra,

Melissa is "stuck" in Australia for an extra day (really!), but she may make the DMMO meeting. (We may both be there since she won't have seen any of the projects ahead of time.) Anyway, I know we coordinated on this project with Superfund back in Feb/Mar, but I have no record (on my computer) of ever giving an answer to them. If you have a copy of a suitability call letter/e-mail from EPA, could you forward it to me? Even if there already is a suitability call, of course you also need to have an EPA concurrence letter with the ocean disposal conditions. I'd be happy to write one up, but I'd need the suitability call to even get started. Otherwise, an answer on the DOP will have to wait for Melissa to return.

Hi Melissa,

I just got this DOP for dredging the trench at Levin terminal. They are requesting to dispose of 3,600 cy of sediment at SF-DODS.

Does EPA concur with this proposed disposal?

-Debra
